NEW

NATURE, CREATIVITY & WELL-BEING ACROSS THE LIFESPAN IN SCOTLAND

Students will become academically and experientially familiar with the mental health/psychological benefits of connecting to the natural world through an examination of the research, reflective discussion and exercise.

Students will learn that nature is more than just beautiful...it's necessary for healthy development! It's also an important part of cultural identity, meaning-making, and sense of place.

NEW

HOSPITALITY AND TOURISM IN MEXICO

Through a hospitality lens, students will get to know Mexico in its vibrant and global capital of Mexico City, and trace it from Aztec to modern times.

Students will explore the heart of Mexico, CDMX, the Teotihuacan pyramid, the second biggest city in Mexico, Guadalajara. This two-week program also includes a museum visit, learning about Mexico's culture and tourism.
