Executive Summary

Guided by National Association of Colleges and Employers (NACE) standards, the University Career Center (UCC) compiles data on the post-graduation pursuits of JMU graduates.¹ For the Class of 2023, the UCC collected data on 76.2% of bachelor's-degree recipients and 63.4% of advanced-degree recipients. Survey methodology is on slide 40.

Of bachelor's-degree recipients in the Class of 2023, 95.2% achieved a career outcome. 74.6% of these graduates went to work, while 20.6% continued their education. For those without a career outcome, 4.1% were still seeking employment or education, and the remaining 0.7% were not engaged or not seeking. The most popular areas for work included Virginia, Washington, D.C., Maryland, and New York. Of those graduates working in Virginia, 43.4% were working in Northern Virginia, 25.7% were in Central Virginia, and 20.3% were working in the Shenandoah Valley. Health professions, education, business/management, psychology and public administration were the most popular pursuits in continuing education programs.

For advanced-degree recipients in the Class of 2023, 96.4% achieved a career outcome. Of these, 91.6% were working and 4.8% were pursuing additional education. Of the 3.6% without a career outcome, 3.0% were still seeking and the remaining 0.6% were not engaged or not seeking. Virginia, North Carolina and Washington, D.C., were the most popular areas for advanced-degree recipients to work. Of those working in Virginia, 32.2% worked in the Shenandoah Valley, 29.6% worked in Northern Virginia and 25.2% worked in Central Virginia.

Hispanic (7.0% of 2023 Class)	168	50.6%	\$61,170	\$59,000	\$74,000	\$47,840
American Indian/Alaska Native (1.4% of 2023 Class)	43	58.1%	\$57,154	\$51,000	\$75,000	\$45,000
Pacific Islander (0.5% of 2023 Class)	14	42.9%	\$88,973	\$56,500	\$63,750	\$52,250

We recognize that students hold a diversity of racial identities, not all of which are quantified in this survey. The above data, therefore, may not fully reflect the racial identities of students on JMU's campus. Students' racial and gender data is provided by the Office of the Registrar.

¹Students may identify in more than one of the racial identity groups above.

JMU Career Outcomes Data Online

If you would like to explore Career Outcomes Data beyond what is covered in this report, we recommend using the University Career Center website.

Visit the **JMU Career Outcomes Webpage** (www.jmu.edu/career/careeroutcomes) to:

- search career outcomes data by major or graduate program
- review past Career Outcomes Reports
- view longitudinal data on career pursuits

Visit the **Career Guide to JMU Majors website** (<https://www.jmu.edu/career/tools/career-guide>) to:

- see patterns of career outcomes for every major
- explore possible industries for employment based on major

Methodology and Quick Facts

Methodology

The University Career Center annually surveys each graduating class regarding their post-graduation destination. Data collection begins the semester before each class graduates. Additional follow-up is conducted for six months after graduation, for students who did not respond to the survey, reported they were still "seeking employment," or reported still "seeking admission to graduate school." The UCC uses a variety of data collection methods: direct survey responses from students (51.1%); phone calls made to students (16.4%); LinkedIn or other online searches (21.9%); National ClearingHouse Data (8.8%); and data retrieved from JMU faculty or staff (1.8%).

Class of 2023 Graduate Quick Facts

- The Class of 2023 includes those who graduated in August 2022, December 2022 and May 2023.
- There were 5,185 degree recipients for the Class of 2023:
 - 4,434 earning a Bachelor's degree
 - 751 earning an Advanced degree (Master's, PhD etc.)
- The total count of students per academic program may vary slightly, because some students held double majors. Any graduate with two majors will be counted just once, included in these statistics by their primary major.
- This report highlights the post-graduation pursuits of 3,854 degree recipients (74.3% of the total 5,185) for the Class of 2023. Thus, our "knowledge rate" of the "first destination outcomes" for the Class of 2023 cohort is 74.3%.

Definitions

- **Career Outcome:** Graduates are considered to have a career outcome if their primary activity is one of the following: employment (full or part-time), military, continuing education, or full-time service/volunteering.
- **Continuing Education:** Pursuing additional education with an institution of higher education
- **Employment:** Includes working full-time or part-time in an organization, fellowship, internship, volunteering, self-employed or freelance
- **First Destination Outcomes:** Activities of graduates occurring within 6 months of graduation
- **Knowledge Rate:** A term used to describe the percentage of graduates for which the University has reasonable and verifiable information--this includes graduates who responded to a UCC survey and those who the UCC was able to find using reputable sources. Sources include JMU faculty and graduate program representatives, employers, the National Clearinghouse dataset of continuing education, LinkedIn, etc.
- **Military:** Actively serving within a branch of the U.S. Military
- **Not Seeking:** Students who indicated they were not interested in seeking employment or education, because they were taking a gap year, traveling, etc.
- **Still Seeking:** Students who indicated they are actively searching for employment or a graduate school program
- **Working:** Graduates who are employed full-time, part-time, volunteering or active military
