Please provide any additional comments about the information provided above:
Individual teacher education programs may require higher GPA for entry or exit than what is stated above.

## Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and not an enrolled student.

Additional guidance on reporting race and ethnicity data.

## Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
Yes
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes
Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes
Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
Yes
Describe your institution's most successful strategies in meeting the assurances listed above:
Regular meetings with local education agencies and professional educators are conducted to review current needs and share program responses. Our involvement in actively supervising student teachers assists in gaining knowledge from the observations and discussions with cooperating teachers as to the needs of the schools and students. Annual employer and alumni surveys are disseminated and reviewed to identify needs of schools and issues/instructional decisions facing new teachers. The vast majority of special education teacher candidates major in Interdisciplinary Liberal Studies, providing them with underlying content knowledge needed for core academic content knowledge. There is a program requirement that all special education teacher candidates must take and pass the Elementary Education content area PRAXIS II test as a program requirement. General education teacher candidates receive instruction in teaching diverse students through coursework and field experiences. Field experiences are reviewed to ensure that candidates have experiences in diverse settings; however due to the nature of our region our candidates have limited access to urban settings and extensive access to rural settings. Collaborations between our programs and urban schools continue to evolve and may remedy this area of need in the next few years. Although our local schools may not be considered "urban" they do provide multicultural experiences of ethnic diversity, language diversity and socioeconomic diversity.

## Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.
Is your teacher preparation program currently approved or accredited?
Yes
If yes, please specify the organization(s) that approved or accredited your program:
State
NCATE
SACS
Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

## Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction Yes
- use technology effectively to collect data to improve teaching and learning Yes
- use technology effectively to manage data to improve teaching and learning Yes
- use technology effectively to analyze data to improve teaching and learning Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The programs consistently integrate the use of technology throughout the teacher candidates' experiences. Multiple courses require teacher candidates to utilize technology while demonstrating their knowledge and understanding of the course material. Coursework is designed to have teacher candidates use technology to
 areas. Some programs have students also create e-professional portfolios to document student learning, highlight effective teaching practices, address state teacher evaluations and to improve teaching. They are prepared to use technology in their teaching, including: productivity software, digital image and video design and creation, interactive whiteboards, mobile devices, information literacy skills, online instructional tools and resources, etc. Education students are introduced to concepts of universal design in a Foundations of American Education class. Candidates' knowledge and skills are further developed in subsequent courses and experiences offered within each licensure program. Student Teaching evaluations contain an item on whether students were able to use technology to appropriately plan methods to meet student learning outcomes. Fewer than $2 \%$ of students scored below the acceptable level on this item.

## Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively Yes
- participate as a member of individualized education program teams

Yes

- teach students who are limited English proficient effectively Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section $614(\mathrm{~d})(1)(B)$ of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

General education teachers' preparation to teach students with disabilities effectively and to teach students who are limited English proficient is provided through coursework and experiences designed by each licensure program. Some programs share a common course which addresses this preparation. Other licensure programs offer coursework and practicum experiences specific to their specialized area. All programs integrate information and strategies related to teaching students with disabilities and students who are English Language Learners in coursework, including field experiences. Although not all candidates are able to experience participation on an IEP team during their student teaching, this information is integrated into their coursework.

Does your program prepare special education teachers to:

- teach students with disabilities effectively Yes
- participate as a member of individualized education program teams

Yes

- teach students who are limited English proficient effectively Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Multiple courses and numerous supervised clinical experiences address these objectives. Special education teacher candidates are provided opportunities to analyze the impact of targeted instruction on student learning, and the use of specific strategies for learners with disabilities. They are well prepared to be members of IEP teams both through their coursework, use of case studies, simulations, and actual experiences in their field placements. As an NCATE accredited program, we collect performance data on all candidates and will not allow those who fall below $80 \%$ proficiency level to progress in the program.

## Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Further evidence that our programs are in compliance with assurances related to technology and teacher training is available through review of national, state and institutional accreditation reports. Our professional education unit successfully achieved reaccreditation through NCATE (now CAEP). All of our programs have met the standards put forth by the Virginia Department of Education. Our university recognizes our programs as compliant with institutional standards of curriculum design and review. As a measure of program quality, NCTO ranks our graduate secondary education program 15th nationally, and tied for 3 rd place in the Southern region (for the 2014 rankings; see http://www.nctq.org/teacherPrep/review2014/findings/regionalFindings.jsp ). Our programs have begun the process of completing SPA reports to achieve national recognition.
