Student testimonials

“Everyone involved was so friendly and willing to help! I felt so welcome and excited to be here from day one.”

“Getting to be actively involved with the Irish culture through activities like the Gaelic games and learning how to Irish dance.”

“Full of vital information that helped me gain knowledge about other cultures and history. It was very fast-paced and organized and created an environment of engagement.”

”An amazing opportunity to be a part of”.

“I thoroughly enjoyed myself and I will be back next year.”

“This week at St Mary’s has been an extraordinary experience that allowed me to enrich myself in a different culture. It allowed me to learn about a different political system and the issues that are still impacting Northern Ireland. Through this experience I became a more globally and culturally competent citizen. Cultural awareness is also a key part for international relations and how we engage with different societies. I want to come back to St Mary’s to study for a semester.”

“Fantastic”

”Amazing. Life-changing. Incredible. I knew this experience would be incredible, but it has gone beyond my expectations. The people from the university were extremely helpful, kind, organized, and truly cared about the program and the summer school students. I truly believe that this experience will lead myself and other students to come back to Northern Ireland in the future.”
