# New IIA Standards and Regulatory Updates Affecting Higher Education IT Compliance

**Emily Goodwin**: Emily Goodwin is a Senior in the Protect Tech Risk Consulting practice at EY. She has been a part of the Internal Audit team led by Carolyn Saint at the University of Virginia since 2021. Emily has experience in delivering risk-based compliance across a multitude of clients and industries to solve complex challenges. She has experience supporting internal and external audit for SOX and other regulatory requirements. Her main focus has been pre and post implementation reviews, IT General Controls, application controls, key report testing, and specialized IT audits in the areas such as Crisis Management, Third Party Risk Management and Network Security.

**Shane Quinn**: Shane Quinn is a staff in the Protect Tech Risk Consulting practice at EY. As a member of the Risk Consulting group, Shane uses his IT Audit experience and strong personal skills, to effectively deliver quality results in the assessment, design, and support implementation of controls, security, and IT risk solutions. Based out of Tysons, VA, he has primarily been involved in Higher Education engagements but also has experience working with clients in the Advanced Manufacturing and Technology sectors.
