

Resolution Endorsing James Madison University's Shared Governance Statement

Whereas the James Madison University Shared Governance Statement (2024) clearly outlines the responsibilities of each stakeholder group in the university governing process,

Whereas endorsing the shared governance statement affirms the Faculty Senate's ongoing commitment to a university community that fosters collaboration, engagement, and shared responsibility,

Be it therefore resolved that

The Faculty Senate formally endorses the James Madison University's shared governance statement (2024) as a guiding framework for institutional governance and decision-making processes.
