

# Awareness to Action

## INCLUSIVE FUTURE TOUR

The 30+30: Awareness to Action Inclusive Future Tour features thought leaders leading public updates to demonstrate current levels of accessibility, belonging, equity, diversity, inclusion activity, celebrate the champions involved, and invite information exchange toward continuous improvement; amplifying the power of our community's collective intelligence, expertise and skill.

**All sessions are held in a virtual, town hall format and JMU community members are welcome to present or attend the first or second 30 minutes of each session.**

**First Half:** 30-minute session (presented in one 30-minute or two 15-minute segments): Champion(s) provide an update on the status, implementation and impact of the recommendation, giving account of actions and status aligning with University Strategic Priorities.

In an effort to make the 30+30 Tour accessible and welcoming for all presenters and attendees, closed-captioning will be provided for each session.

**Second Half:** 30-minute Community-Informed Continuous Improvement Discussion. Bring your expertise! After hearing from champions, student, faculty and staff innovators are invited to stay for the second segment which will focus on sharing intelligence, expertise and skill in the context of continuous improvement.
